

U.P. FOOTBALL ALL-STAR GAME

Football Underclassmen Get Tested at the All-Star Combine

MARQUETTE, MI - The U.P. Football All-Star Game will be holding a testing "Combine" on Saturday morning, June 30, before the seniors take the field for the last time. Any U.P. high school football players who will be in grades 9-12 this coming season are welcome to attend.

The testing events will be the same ones that the players in college have to compete in prior to the NFL draft. They also are the same ones that many of the current all-star players have performed in the past to show how they stacked up with the other players from around the U.P.

Anyone considering playing college football should be tested and registered. Collecting this data early on in the high school years is important in the recruiting process.

Events include the 40 Yard Dash, Broad Jump, Vertical Jump, Shuttle Runs, Bench Press and Physical Measurements (height, weight, hand span, wing span).

Any players wishing to attend the Testing Combine may register by going to www.xcel.net and clicking on the Xcel Sports Training logo. The cost for attendance is \$45. The Combine starts at 9AM, so get there a few minutes early to check-in or get registered. Advanced registration is encouraged, but athletes may register on-site.
